June 17-19
2021
Berlin

“BUILDING BRIDGES”

In Cooperation with

DGÄPC
Deutsche Gesellschaft für
Ästhetisch-Plastische Chirurgie

In Cooperation with
International Master Course
on Aging Science (IMCAS)

Dear colleagues and friends,

We cordially invite you to the upcoming aesthetic spring meeting in Berlin.

The current situation has restricted events and meetings and affected interpersonal exchanges of our experiences. We are all looking forward to meeting with our peers in person again, sharing knowledge and refining our techniques.

All this in a time when our field is experiencing a fast transformation. Many interventions can be simplified or replaced by less invasive techniques today. New procedures are appearing and calling for revision of our views. To meet these challenges, expand our view beyond national boundaries and re-build bridges, we are especially pleased to join hands with our colleagues from Brazil and South America. These regions have a long history with the field of aesthetic surgery and are often trendsetters in many ways.

We invite you to take advantage of an excellent opportunity to expand your contacts and clinical experience, to see other perspectives, and to discuss classic techniques in the light of different approaches and solutions. All of this in the relaxing atmosphere of a riverside hotel within walking distance to the nightlife district of Berlin.

We invite you and your colleagues from abroad to present your work and contribute to the traditional video session, which will be divided into a master class and a slam session with short presentations, giving you the opportunity to present your personal approach and experiences.

We all hope that conditions will allow us to meet in the springtime. We are very much looking forward to welcoming you to Berlin to explore current trends and controversies and enjoy the company of globally recognized experts.

Warm regards,

Dr. Uwe von Fritschen
Congress President

Dr. Steffen Handstein
VDAEPC President

Dr. Joachim von Finckenstein
GBAM Host & Founder
